ABOUT ME

Future Software Engineer with a profile focused on designing robust and scalable software architectures. Practical experience in Full Stack development and Deep Learning solutions, with an analytical approach centered on Agile methodologies and technical excellence.

TECHNICAL SKILLS

- **Databases:** SQL, Firebase, Oracle, XAMPP, MariaDB, MongoDB
- **Web Development:** HTML, CSS, JavaScript, PHP, Docker
- **Mobile Development:** Java, Dart, Flutter, Android Studio
- **Microprocessor Programming:** C, Assembly
- **Project Workflow & Tools:** VSC, Jira, Git, Agile Methodologies, StarUML, CLI
- **Data Science & Analysis:** Python, Jupyter, AWS

EDUCATION

2023 - 2027 | SOFTWARE ENGINEERING

La Salle Universitat Ramon Llull

- Honor Distinction – Departmental collaboration I (2026)
- Honor Distinction – Software Methodology I (2026)
- Honor Distinction – Systems Administration and Design (2026)
- Honor Distinction – Advanced Programming and Data Structures (2025)
- Honor Distinction – Database Systems (2025)
- Honor Distinction – 3D Graphics Programming (2025)
- Honor Distinction – Programming Projects II (2025)
- Honor Distinction – Introduction to Computing (2024)

WEB PORTFOLIO

Have a look at my projects and skills at [PereGrauPortfolio](#)

EXPERIENCE

SEP 2025 – MAY 2026 | DEPARTMENTAL COLLABORATION IN DATA SCIENCE

- Participated in MarketingAI projects, analyzing keyword usage in newspapers to identify political bias and studying news trends using AI and AWS.
- Developed skills in NLP, Big Data, and content analysis to extract strategic insights from media outlets.
- Expanded expertise in Deep Learning by designing MLP and Convolutional Neural Network (CNN) architectures.
- Implemented genetic algorithms for model optimization and solving complex search and efficiency problems.

SUMMER 2025 | FULL STACK DEVELOPER (VOLUNTEER)

- Led the end-to-end design and development of a mobile application for sales management at Les Festes de Gràcia, including frontend, backend, and database integration.

2021 – PRESENT | PRIVATE TUTOR

- Provided private lessons in Mathematics, Physics, and Chemistry for secondary and high school students.
- Currently offering programming tutoring at the university level.

SUMMER 2024 | INTERNATIONAL WORK EXPERIENCE (IRELAND)

- Completed a three-week professional stay at an Irish supermarket to gain international experience and improve English fluency in a real-world environment.

REMARKABLE PROJECTS

HackUPC 2026 - Mecalux Challenge | Developed a REST API and optimization algorithms for warehouse routing and space management using Genetic Algorithms and Simulated Annealing.

ADDITIONAL INFORMATION

- Driver's License and personal vehicle.
- Introduction to Networks (CCNA 1) certification.

LANGUAGES

- Catalan: Native.
- Spanish: Native.
- English: First Certificate in English (B2 - Upper Intermediate).
